

Office of the Assessor
Mary Margaret Tamez

September 9, 2026

Township Meeting Notes:

- We are still accepting exemptions for the 2026 year and will be able to do corrections for the 2025 exemptions through October 30th.
- August 18th I hosted "Understanding Property Tax Assessments" here at the Township Hall. I had 10 attendees and it was a great night! They are all planning on attending the next workshop in October "Know Your Exemptions".
- I have two college graduates Emma and Zack that were former field staff that are working, getting us prepared for the quadrennial reassessment this upcoming year. I am very happy to have them back.
- Notices of revised assessments were mailed out. There was an error in the mailing with the market value listed being incorrect, so they were sent out a second time three weeks later. This has generated many phone calls. I have met about this with quite a few people and have hopes of the meetings resulting in eliminating them appealing.
- The window for appeals this year is from August 12th through September 13th. This process is done through the Supervisor of Assessments Office. Currently we have three appeals filed. Last year we had about 70, so I am hoping this number stays low.
- I have made quite a few changes with TrueRoll. Currently changing 44 parcels that have removed \$383,207 of exemptions that were no longer qualified. Relly happy with this and I am looking forward with diving deeper
- Leigh is drawing the field staff work, entering permits, and exemptions.
- Paige is working on sales and deeds.
